Introduction

Welcome to your Natal Chart report.

Your Natal Chart report is an astrological chart based on the mathematically precise positions of the planets and the Sun & Moon at the time, date and place of your birth. It provides you with insights into your character and personal life potentials by indicating the strengths you have and the challenges you experience in life.

Your Natal Chart report covers among other things your primary motivation in life, your identity, emotions, mentality, love and sexuality, spirituality, earning ability and career potentialities and so on.

In some parts of the report you will come across apparent contradictions in the descriptions of your character. This is to be expected; people are complex and have many contradictory facets to their personality.

Section 1: The Natal Report

The 1st House

The 1st House describes you, your self-expression and vitality. It is your physical appearance and the way others see you and interact with you. The 1st House cusp is, in most cases, the Ascendant or Rising Sign of your chart and indicates your primary motivation in life. The house placement of your 1st House ruler shows the areas of life that are of primary importance to you. Also, planets in your 1st House influence how you present yourself to the world.

Ascendant in Leo

Your primary motivation in life is to attain power and recognition. You make an immediate impact on others through displaying an authoritative and commanding personality. 5th House Cusp Ruler, Jupiter, in 12th House

Your pleasures and amusements are a private affair to you. You enjoy quiet times and solitude. You may have secret romances. You may also have hidden artistic talents. Care is necessary with respect to careless risk-taking, as it could lead to confinement or self-undoing.

Uranus in 5th House

Romantic encounters may start and finish suddenly. Boredom within love-unions may lead to affairs. Sudden or unplanned pregnancies are possible, if appropriate care is not taken. national or global economies. You can make innovative use of whatever resources you have at hand.

Aspects to Uranus

Uranus Opposition Sun (2°46' S)

You are very much your own person and march to your own drumbeat. An original personality, you delight in being different and unique. You are intensely strong willed and individualistic and will go to great lengths to achieve your personal goals and objectives. You are highly independent and freedom loving, and refuse to be bound by convention. Other people may feel challenged by your individualism and forced to question their own conformity when they see you in action. You are innovative and progressive, with a modern and contemporary outlook on life, but can also be extremely self-willed, disruptive and unpredictable. Provocative and contradictory, you can stir up people or create incidents just for the sake of it. Expect the unexpected in your life, including sudden changes, setbacks and accidents. You may be a genius ahead of your time, or an eccentric.

Uranus Conjunct Mars (2°47' A)

An original personality, you assert the right to live by your own rules and standards. Your freedom and independence are very important to you and you will rebel against anyone who attempts to restrict them in any way. In your personal relationships, you can be unpredictable and difficult to live with due to your strongly individualistic inclinations. Occasionally, you can be provocative and wilful, which can lead to conflicts and heated arguments with others. A risk taker, you are unafraid of challenging or potentially dangerous situations. You have an adventurous spirit and a fearless nature, which dares to try out new and different things in life. Adventure or high-octane sports excite you, but you need to take care to avoid injuries and accidents.

Uranus Opposition Neptune (1°47' S)

The aspects between the so-called generational planets cause effects that are more collective than individual. On a personal level, you are someone who has an interest in gaining spiritual understanding. You may be psychically gifted, if other factors in your horoscope support this. Less positively, there may be an attraction to stimulants or mind altering substances.

Mars in 5th House

In regard to matters of the heart, the thrill of the chase can be everything! A born romantic, you are ardent, passionate and enthusiastic about pursuing the object of your affection. Likewise, suitors can be just as ardent and determined in their pursuit

of your affections. You have a competitive spirit and may excel in a sport or recreational activity. You enjoy expressing your leadership abilities and may coach or tutor others. You can be impulsive and reckless with regard to speculations or gambling.

Mars in Capricorn

You are ambitious and have the capability to set your sights on an objective and to reach it by practical work and effort. You have the ability for strategy and planning and are well-suited to managerial positions. Known for your efficiency, you can be relied upon to carry out well-planned actions effectively and with the minimum of fuss.

Aspects to Mars

Mars Opposition Sun (0°01' A)

You are a dynamic personality and a readiness for action is your signature. However, you can also gain a reputation for impatience, quick anger and aggression. You thrive on adventure, love danger and are prepared to take risks that others wouldn't contemplate. You are especially bold, courageous and audacious, but also occasionally reckless and careless. You need to guard against accident proneness. Advancements you make in life are based on your personal efforts and determination. You have quick reflexes and are able to respond to situations immediately. You may enjoy sports; certainly you take pleasure in setting challenges for yourself and competing with others.

Mars Opposition Jupiter (7°02' S)

Your motivation in life is to live life to the max. You are ambitious for personal success and never back down from a challenge. In fact, the tougher something is the more determined you become. You usually manage to achieve whatever you set out to accomplish because quitting never enters your mind. You are a productive, energetic and resourceful person who has ability to organise your affairs well. If other factors in your chart support it, you have managerial and business abilities. At the very least, you are decisive and able to make decisions quickly. Also, you have a good sense of timing, especially when it comes to recognising profitable opportunities. You are competitive, in a good-natured way, and most likely enjoy sports, adventurous games or various forms of physical exercise. You need to be aware that a 'might is right' attitude and cocky or arrogant behaviour won't win you friends. There is the likelihood of philosophical differences with others.

Mars Opposition Neptune (1°00' A)

The main challenge of this aspect is to discover how to channel your energies most effectively. This is difficult because Neptune tends to undermine Mars' ability to act by dissipating its power, or causing it to express itself in a chaotic or immoral way. Physically, the body's defences can be weakened causing a susceptibility to infections and viruses. On a more uplifting note, this aspect is often found in the charts of spiritual aspirants who direct their energies towards the higher good. For creative people, this pairing can produce talents in music, visual arts, theatre, film, photography or fashion. Physical exercise such as swimming, water sports, Yoga or Tai Chi may appeal to you.

The 6th House

The 6th House is associated with work and employment or service. It describes your dependents such as pets, employees, servants and tenants if you have any. It is the house of health and sickness. It governs doctors, nurses and dentists.

6th House Cusp in Capricorn

You are a hard and responsible worker who views work seriously and realistically. You need stability in your career so as to maintain a sense of inner security and well-being. You expect to receive appreciation for your efforts and hold the opinion that a job well done should be acknowledged. Dissatisfaction with your work will be felt if it becomes routine and predictable. Self-employment may appeal.

The outcome of this house is determined by the placement of its ruler.

6th House Cusp Ruler, Saturn, in 8th House

Your occupation may involve managing other people's money, such as in banking, insurance or stocks. Or, you could be attracted to danger work that carries an element of risk with it. Possibly, volunteer or relief work within the emergency services could interest you.

The 7th House

The 7th House is associated with partnerships, both personal and professional. It rules your relationship with other people generally, including those who oppose you. It also describes the sort of person you will attract as a mate.

7th House Cusp in Aquarius

You are drawn to, and attract, unusual and original partners who know their own mind and understand human nature. Your relationships are likely to be unique and unconventional in some way. You are attracted to intellectually stimulating people, who are also free-acting and independent. It is probable that you are demanding in your relationships and want things your way. If so, expect rebelliousness and stubbornness from partners.

The outcome of this house is determined by the placement of its ruler.

7th House Cusp Ruler, Saturn, in 8th House

Other people and partners tend to influence you in the realisation of your ideas and objectives. You may establish unions for material security. Equally, partnerships that you form are likely to build up resources, yet problems are possible if one of the partners is reckless or prone to running up debts.

The 8th House

The 8th House is the house of shared resources, other people's money, including the partner's. It is associated with wills, inheritances, death and loss.

8th House Cusp in Pisces

There may be uncertainty surrounding a partner's source of income. Also, from time to time, a partner may be unsure of his or her own earning ability. Problems may arise between you and your partners, through an 'easy come easy go' attitude towards money. You may be fascinated by esoteric subjects or the occult.

The outcome of this house is determined by the placement of its ruler.

Saturn in 8th House

The financial affairs of your personal or professional partners are likely to be an ongoing source of concern or worry for you. It is possible that a partner may experience problems or struggles with money, or cause you personal financial difficulties. Tax matters or inheritances may be a burden and if mishandled could possibly result in legal action. Loans from banks or lending institutions may not be easily obtained.

Saturn in Pisces

You have a sacrificing nature, coupled with a willingness to work on behalf of the less fortunate or those who need help. You have deep understanding and compassion. At times, you doubt your ability to cope with the demands of others or circumstances. You need regular periods of seclusion and rest.

Aspects to Saturn

Saturn Sextile Moon (2°16' S)

You have a practical outlook on life, coupled with a strong sense of duty and responsibility, especially towards your family. You are considerate, responsible and good at organising. You are usually at ease with your own company and enjoy occasional periods in seclusion. At times, you can be uncommunicative and prone to bouts of melancholy and feelings of loneliness.

Saturn Square Venus (3°06' A)

Regarding matters of the heart, you are cautious and inclined to put practical considerations before romantic desires. You have a tendency to exercise self-control in love, perhaps at the expense of emotional satisfaction and spontaneity. People generally need to earn your trust before you allow them to get too close. Yet, once trust is established, you are very loyal and steadfast. You view relationships seriously and value stability and fidelity in love. You are attracted to people older than yourself and respect their life experience and maturity. At times, you enjoy time alone and are content in your own company. Alternatively, you can be emotionally cool and indifferent, even hardhearted and cold. There may be difficulties in expressing affection and discomfort with intimacy. You can be inhibited and lack self-confidence in love, resulting in periods of loneliness or forced abstinence.

Estrangements and separations in love are possible. (Note: artistic excellence is sometimes found with this planetary pairing due to the discipline required for high art).

Saturn Trine Jupiter (7°01' A)

A harmonious aspect, such as this, between positive Jupiter and realistic Saturn brings out the best in both planets. You have good common sense, a responsible attitude and wisdom gained through life experience. Successes are likely in business, financial matters and academic work. You are hard working and industrious, but also smart enough to know when to cut back and consolidate. You have the experience to recognise a good deal when you see it and the patience to let it mature in its own time. Honest and straightforward in your dealings with others, you earn their trust and respect. You are even-tempered, reliable and fair when making decisions or judgements.

Saturn Square Pluto (3°42' A)

Everything you achieve in life is as the result of sheer determination and effort. In reality, nothing of lasting value comes to you without hard work and sacrifice. A simple analogy you can use to understand this aspect is: the more preparation you do for an exam the better your pass will be, the less your preparation, the worse you'll do and the worse you will feel afterwards. You have great powers of endurance and perseverance, coupled with a tenacious attitude and the self-discipline to see things through to their successful conclusion. You have the power to perform at the highest level, but only after you have served an appropriate apprenticeship. Other people acknowledge your authority and expertise in a particular field, when they can see you've earned it. In summary, work hard and prosper, accept disappointments with dignity, not bitterness, and remember that difficult times don't last forever.

Saturn Sextile Midheaven (4°07' A)

You are ambitious for professional success and will work hard to achieve your goals. Naturally self-disciplined, you know that success only comes before work in the dictionary; thus you will apply yourself diligently to your duties. You are a reliable and trustworthy worker, who is capable of holding important and responsible positions. Stability in your career contributes to a stable and secure home life and vice versa.

Important teachers and advisers tend to be bold and pioneering, but also contentious and aggressive.

The outcome of this house is determined by the placement of its ruler.

9th House Cusp Ruler, Mars, in 5th House

You have the power to use your creative abilities and imagination to communicate your beliefs and ideas about life. You have the ability to present spiritual ideas through art or performance. Also, you could be a teacher who has an entertaining way of getting your message across to others. Travel, higher education or the study of spiritual subjects are likely to give you pleasure.

The 10th House

It is probable that your mother had a strong influence in your personal development.

The Qualities and Elements

The signs of the zodiac are grouped into two basic categories. These are known as the Qualities and the Elements. The Qualities describe fundamental modes of activity and the Elements describe temperament. There are three Qualities: Cardinal, Fixed & Mutable and four Elements: Fire, Air, Earth & Water. Your horoscope has varying degrees of each Quality and Element. The percentages you have of each will determine their importance in your life. The higher percentages will be more powerful in your life, the lower percentages will be less powerful.

The Qualities

42% Cardinal

The Cardinal signs are Aries, Cancer, Libra & Capricorn. The more planets you have in any of these signs the more Cardinal you are:

Cardinal people are action oriented and initiating. They are interested in promoting change and bringing new things into the world. They are direct, assertive and like to take charge of situations. They are ambitious, independent and dislike being supervised. They are good at starting projects, but not so good at completing them. They have abundant enthusiasm and are very resourceful. Cardinal people generally don't hold grudges.

33% Fixed

The Fixed signs are Taurus, Leo, Scorpio & Aquarius. The more planets you have in any of these signs the more Fixed you are:

Fixed people are persevering and enduring. They achieve results in life through determined and persistent effort. They tend to do one thing at a time and are extremely practical in their approach to everything. They are not easily influenced by

others and can be quite firm or stubborn once their minds are made up about something. They tend to hold onto things and are reluctant to change. They are staunch, but they can also be inflexible and at risk from becoming set in their ways.

25% Mutable

The Mutable signs are Gemini, Virgo, Sagittarius & Pisces. The more planets you have in any of these signs the more Mutable you are:

Mutable people are the most flexible of the three types. They are able to go with the flow. They are changeable and adaptable, but also indecisive and restless. They are sensitive to the opinions of others, but they can also be impressionable and easily influenced by environmental circumstances. Mutable people lack the stubbornness of the Fixed signs and the forcefulness of the Cardinal signs, which makes them good mediators and go-betweens.

The Elements

17% Fire

The Fire signs are Aries, Leo & Sagittarius. The more planets you have in the Fire signs the more pro-active and self-determining you are:

The Fire signs go for freedom of action and power. They strive for recognition in life. They are out-going and enthusiastic, adventure seeking and powerful. They are ardent, passionate, assertive, demonstrative, bold and courageous. They can also be impatient and bossy, wilful and reactive, especially when they face delays or obstructions in their path.

33% Earth

The Earth signs are Taurus, Virgo & Capricorn. The more planets you have in the Earth signs the more practical and needful of security you are:

The Earth signs seek material security. They are down-to-earth, pragmatic, cautious, sensible and conservative. Hardworking and industrious, Earth signs are able to put into effect the ideas and inspirations of the other signs. They can be accumulative, possessive and overly materialistic. They are also sensual and pleasure seeking.

17% Air

The Air signs are Gemini, Libra & Aquarius. The more planets you have in the Air signs the more pro-active and self-determining you are:

The Air signs go for freedom of action and freedom of movement. Air signs need to be able to come and go at will. Their domain is the air we breathe; hence they are conduits for communication and the exchange of ideas. They are mentally alert and intellectually stimulating. Gregarious and sociable, Air signs like to be around other people. They are observant and perceptive, curious and inquisitive. They live totally in the here and now, and want to be in whatever is going on.

33% Water

Section 2: Annual Transits from 1 July 1925 to 30 June 1926

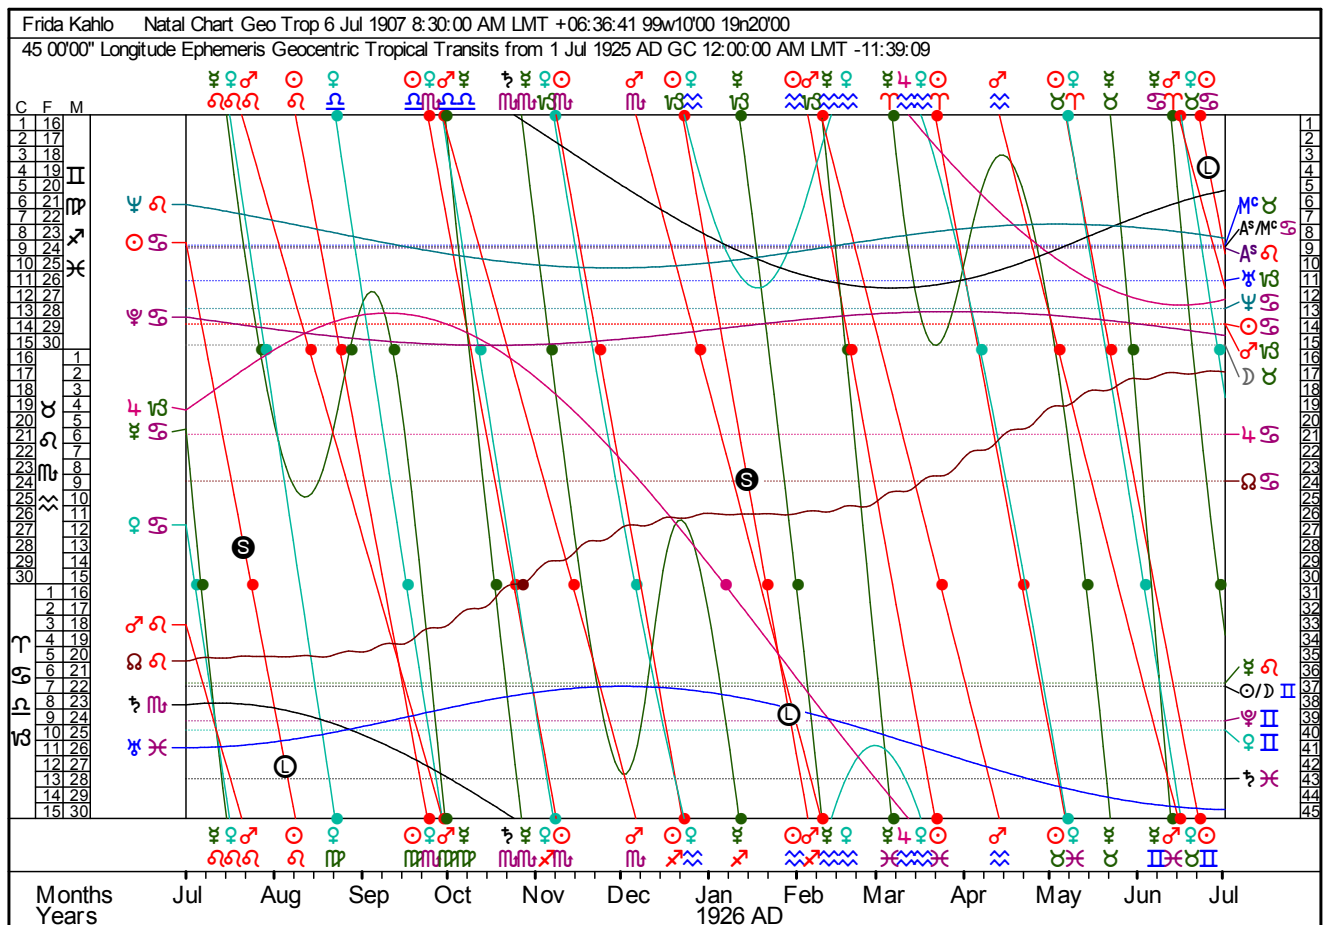

Introduction

This report shows the astrological trends influencing your life over a period ranging from days to months or years, depending on the time frame used.

The duration of each trend is indicated by a starting date, an ending date and strongest influence date. Further, an influence may begin before the time frame of the report or end beyond it.

The accuracy of the timing of the forecasts is dependent on the accuracy of the birth time. Be prepared to slide the sequence of trends either forwards or backwards in time if necessary. In some instances, there may be interpretations that repeat themselves. This is due to the cyclical and forward and backward motion of the planets activating points on your chart more than once in the period under review.

As you will find, the forecast interpretations can be positive and/or challenging. Their effects can be experienced either directly personally or through events in the lives of others in the environment. Some trends will be more apparent than others, while others may be more subtle. What is most important is how you respond to them.

Before 1 Jul 1925 - 11 December 1925, Transiting Jupiter is passing through your 5th House

You can expect a variety of pleasant experiences with Jupiter passing through this house. Your creative capabilities are enhanced at this time and you could enjoy artistic successes. Your social life will be more active now and there may be opportunities for romance too. If you have children, your relationship with them should be very good now, providing other factors in your chart don't contradict this. Also, if you're considering having children, this can be a good period for starting a family.

Before 1 Jul 1925 - 7 January 1926, Transiting Saturn is passing through your 3rd House

This transit is excellent for embarking upon some course of serious study or mental work. For one thing, you will have the necessary discipline and concentration for it and, for another, you will find it very rewarding if you see it through to completion. Less positively, you may find communication with others, especially siblings and neighbours, takes more effort than usual. Misunderstandings could cause problems. Be very careful with important documents and contracts during this period; make

sure you double check everything and get good advice before signing anything complex.

Before 1 Jul 1925 – June 1926, Transiting Pluto is Conjunct your Natal Sun

This is one of the most powerful transits you are likely to undergo in your life, in which some aspects of your life will change because they are no longer viable and sustainable. You are, in effect, undergoing a process of inner change and transformation, complete with the purging of character traits you've outgrown. The Sun in your horoscope represents your self-determination, desire for recognition and your ability to assert authority or to dominate. Pluto, the planet of transition, revitalisation and regeneration, forces you to confront yourself and the status of your individuality. If, in the past, you have surrendered your power to another, especially a significant male, you will no longer be able to maintain this as a way of life. Instead, you will feel compelled to claim and assert your own power and authority. Consequently, you may experience power struggles, but these may be a necessary part of the process of re-defining yourself and establishing your autonomy. In certain circumstances, this transit can manifest as a crisis or turning point in the life of an important man in your life. For instance, a father or male partner could experience something like illness or problems at work, which impact upon you indirectly, yet still force you to make adjustments in your own life.

Before 1 Jul 1925 – June 1926, Transiting Pluto is Opposition your Natal Mars

This is a potent transit. Positively, you will probably have more energy and ambition than usual now. You have the capability to achieve a great deal through single-mindedness and determination. Quite possibly, you may push yourself to the limit or to the point of physical, mental and emotional exhaustion now. Less positively, there can be power struggles with others involving issues of dominance and subservience. You may feel under pressure from another or others during this period. Arguments can be emotionally intense now. Avoid contact with negative or destructive people and to stay out of tough neighbourhoods.

19 July 1925 - March 1926, Transiting Uranus is Square your Natal Venus

With the arrival of this Uranus transit to your natal Venus may come the realisation that perhaps all is not as well as it could be in your love and relationship life. If you are in a relationship, you could start feeling bored and restless, especially if the two of you have settled into a comfortable groove. Whatever the current status of your relationship life, you will introduce changes to it, especially if it has become a bit pedestrian. Be aware of one important thing, if your relationship isn't in the best shape, this transit could bring it to an end. If you are not in a relationship and have been suppressing your desires, you may begin to feel restless and emotionally frustrated. Whichever of the above situations applies to you, expect things to change in love and expect the unexpected. This is the classic "love at first sight"

combination; however it is also associated with attractions that form suddenly and terminate just as quickly. Therefore, do not expect permanency in love from this transit. Instead, keep yourself in the moment and enjoy it for what it most likely is - an attraction of short duration. Aside from relationship matters, this combination is a boon to artistically creative people searching for new and original ideas and expressions. Under special circumstances, this transit can be a trigger for pregnancies and births.

7 August 1925 - 12 October 1925, strongest around 19 August 1925 and 30 September 1925, Transiting Jupiter is Conjunct your Natal Mars

During this period you have the capability to achieve a lot if you put your mind to it. You have increased energy, coupled with a strong desire to accomplish great things. You are motivated by the urge to live life as fully and productively as you can, because you have more drive and determination than usual now. This is an excellent business period, or time for initiating enterprises and starting new projects. It is also one of the best transits possible for making decisions and negotiating deals in your favour. Truly, it is the combination of the successful manager or entrepreneur. The only thing you need to be aware of is a tendency to take on more than you can comfortably handle or to over-estimate your physical powers. If you are sports oriented, this transit can improve your game and take you to another level of fitness. In special circumstances, birth and procreation can feature under this influence. However, other factors in your horoscope must be present for this to be the case. The main feature of this transit is "successful action". Take advantage of it, as it only comes around once every 12 years.

7 August 1925 - 12 October 1925, strongest around 19 August 1925 and 30 September 1925, Transiting Jupiter is Opposition your Natal Sun

During this period your desire for gain, power and advantage is accentuated. You have the urge to improve your position in life. Above all, you want to better yourself and expand your horizons - which you may do through travel, higher education, financial activity or speculation. However, you must take great care to keep a sense of perspective on everything and not to over-estimate yourself or your capabilities. There is a danger that you may take on more than you can comfortably handle and risk getting out of your depth. Also, you could be prone to wastefulness and extravagance now. In extreme circumstances, some people can be prone to disproportional amounts of arrogance during this transit, and conflicts with authority figures or brushes with the law are not unheard of. This said there are definite opportunities for growth and personal development under this influence.

14 August 1925 - February 1926, Transiting Uranus is Square your Natal Pluto

The fundamental effect of this transit is to transform your life. During this period you become increasingly aware of the need to make significant changes in specific areas of your life. Old patterns of behaviour, or situations you have been putting up with for longer than is good for you, will be the main targets of this transit. You are

encouraged to let go of the old, and to establish new conditions of living for yourself, which are more in keeping with your current needs. If you are the sort of person who welcomes change, this will be a stimulating and exciting period for you, with many doors opening. However, if you resist letting go of whatever has outlived its purpose, this can be a time of intense pressure and anxiety. A change of place or locality is possible now.

16 August 1925 – July 1926, Transiting Neptune is Square your Natal Midheaven

This can be a particularly challenging transit to endure; you can expect to vacillate over your career, direction in life and your domestic arrangements. In particular, you may feel discontented with your home and family life in some way, or unfulfilled by it. You may certainly have doubts about yourself and your overall goals in life at the moment. However, this is not the time to stray off your course, even if you are in a totally inappropriate vocation. Do not make any decisions now that could change the entire course of your life because this is not a good time to place your security at risk. What you can do, however, is to use this period to re-examine your goals and determine how meaningful they are in the overall scheme of your life. The Midheaven corresponds with your reputation; therefore guard against acting in anyway that may be dishonest or immoral, as this could lead to a fall from grace. There may be instability at home or in the family. A change of residence is possible. Positively, this is a good period for looking into spiritual or metaphysical subjects and expressing any artistic or creative potential you have, especially music, dance, drama, photography or painting.

21 August 1925 – July 1926, Transiting Neptune is Conjunct your Natal Ascendant

During this transit you are likely to feel all at sea and uncertain about where you're going in life. You may feel confused about yourself and your relationships, especially your intimate one-on-one contacts. Possibly, you don't know what you want in a partnership at the moment, consequently you send out mixed signals to another. There is a danger of being exposed to deception now; this could be within a personal union, or through a casual acquaintance, including someone at work. You are extremely sensitive to environmental influences at present, including jarring sounds and sights in your personal surroundings. Positively, this is an excellent time for re-discovering your connection with the natural environment and your spiritual or creative power. Artistic expression is well-aspected now, due to your increased sensitivity and imagination. Travel is possible.

17 November 1925 - 28 November 1925, strongest around 22 November 1925, Transiting Jupiter is Opposition your Natal Jupiter

During this period, you will tend to view life more positively and optimistically than usual. Expect your understanding of the world to broaden - this may be experienced through such things as long-distance travel, higher education, or simply by being more outreaching and embracing of life and others. However, there is a need to

caution against extending your scope of activity beyond what you can reasonably manage - or of losing your sense of proportion and perspective. At its best, this transit brings the rewards of hard work commensurate to the amount of energy you put in. But if you simply sit around enjoying the feelings of well-being it induces, you will have little to show for it after it passes. While this can be a financially prosperous time, you would do well to guard against wasteful or extravagant tendencies. Also, it is not uncommon for some people to get a superiority complex during this transit and end up arguing with others, especially over matters of outlook or philosophy.

11 December 1925 - 28 April 1926, Transiting Jupiter is passing through your 6th House

During this transit your focus will be on succeeding in your work and improving your overall health and fitness. Your relations with your co-workers or employees should be relatively good now and, in general, you should enjoy your work throughout this period.

27 December 1925 – October 1926, Transiting Saturn is Opposition your Natal Midheaven

This is an extremely important period in your life, but not one of your high points. In fact, you may be feeling quite despondent now because success of any consequence seems to be eluding you at the moment. However, try not to allow defeatist attitudes to get the better of you, because you are actually starting your ascent to one of the most momentous periods of your life, which will be in about 14 years. Instead of worrying about an apparent lack of recognition or acknowledgement focus on sorting out your personal and family life. With respect to vocational matters, it is a very good time now for re-defining your goals and establishing a sound base from which to build upon.

29 December 1925 - October 1926, Transiting Saturn is Square your Natal Ascendant

This is not an easy time. You are likely to feel a bit flat and low, even if you are a naturally up-beat and positive person. The environment may not be everything you'd like it to be; it may seem harsh or unsympathetic. In certain circumstances, this can coincide with a stay in hospital or contact with people who are not in the best of health or circumstances. Your relationships with other people will be tested at this time and possibly a contact will be terminated. Don't see this as a bad thing; in all likelihood the connection had reached the end of its purpose in your life. Your strong and reliable relationships will survive this period intact. Often people have the urge to move during this transit.

7 January 1926 - 7 May 1926, Transiting Saturn is passing through your 4th House

During Saturn's transit through this house, your primary focus will be on domestic and family matters. You may have to accept more responsibility in your family, or for

a family member. In extreme circumstances, your family may share a difficulty that either brings everyone together or causes a breakdown of relations and estrangements. In terms of social and outward success, you are in the middle of a 30-year low, indicating past levels of recognition will be hard to recreate now. The 4th house also has to do with the past, so it is possible that old wounds may be re-opened for you to look at and hopefully put to rest.

3 March 1926 - 29 March 1926, strongest around 17 March 1926, Transiting Moon's North Node is Conjunct your Natal Moon's North Node

There is the tendency to make or break significant (karmic) contacts now.

4 April 1926 - 16 May 1926, strongest around 23 April 1926, Transiting Uranus is Conjunct your Natal Saturn

This can be a nerve-wracking transit if you dislike change. Uranus, the planet of change and rebellion, has come into the sphere of your natal Saturn, the planet of structure, stability and rigidity. These two planetary energies are almost polar opposites; therefore be prepared for a bit of a shake-up, coupled with strong feelings of inner tension and unrest. We all need structure in our lives in order to function properly; however there are some structures we create that actually prevent us from growing and moving forward. Those areas of your life that you find restrictive and inhibiting will be targeted first. Nothing is permanent; even those aspects of your life you think are rock solid. It is now the time to unlock the padlock in your mind and break out of any self-limiting patterns. During this period you could do something like walk out of an oppressive relationship, throw in an unfulfilling job, or take risks you wouldn't ordinarily entertain. This is an unpredictable time, but if you stay true to yourself and let go of those areas in your life that are holding you back, the long-term gains far outweigh the short-term disruptions. Under certain conditions, sudden separations or confinements can occur during this transit.

8 April 1926 - 27 April 1926, strongest around 15 April 1926, Transiting Moon's North Node is Conjunct your Natal Jupiter

During this period you have the ability establish harmonious relationships. Alternatively, there can be disharmonious relations with others due to a lack of adaptability or conflicts over matters of outlook.

21 April 1926 - 6 May 1926, strongest around 28 April 1926, Transiting Jupiter is Opposition your Natal Ascendant

During this period your personal and professional relationships should take a noticeable turn for the better. You are more open to the influence of others now and people will seem favourably disposed towards you. There are opportunities for joint endeavours, which will prove to be mutually beneficial in the long run. If other factors in your chart support it, you could establish an important personal relationship under this influence.

28 April 1926 - Beyond 1 Jul 1926, Transiting Jupiter is passing through your 7th House

Important and influential people can come into your life and have a positive effect in general. Some people establish significant personal unions during this transit, while others welcome the assistance of experienced professionals, such as consultants, counsellors or advisers. Partnerships formed now are generally successful.
