Harry and Meghan**

Introduction

Welcome to your astrological Relationship Report.

This report is based on the astrology technique of Synastry, which compares the horoscopes of two people and interprets the correlations between them.

The first part of the report analyses the mix of Qualities and Elements between you to give a general indication of your modes of behaviour.

The second part looks at the placements of each other's planets in one another's natal houses. This indicates how you influence each other in the areas of life represented by the houses occupied by one another's planets.

The third part interprets the inter-aspects between your two charts. This shows how you relate to each other. Some of these interpretations are positive and easy and others are challenging.

Your Relationship Report reveals your areas of harmony and compatibility as well as your areas of tension and conflict. Hold in mind that human relationships are complex and contradictions can occur in the interpretation.

We trust you will find the report insightful and helpful.

Qualities and Elements

Harry's strongest Quality is Mutable and Meghan's strongest Quality is Cardinal

A relationship between Cardinal and Mutable personalities is generally good as you both enjoy change and variety. Meghan has a pioneering spirit and likes to initiate new things and Harry is very adaptable. Problems can arise between you, though, if Harry is negligent and unmotivated or if Meghan tries to dominate or order Harry around.

Harry's strongest Element is Earth and Meghan's strongest Element is Fire

Relationships between Fire and Earth personalities can be mutually advantageous. Meghan is enterprising and outgoing, whereas Harry is security conscious and cautious. Harry benefits from the opportunities that Meghan creates and Meghan, in turn, benefits from Harry's common sense and ability to provide material protection. Problems can arise between you, however, if Meghan becomes frustrated with Harry's conservatism, or if Harry can't cope with Meghan's constant need for change and excitement.
